ORDER:

The Forest Grievances Enquiry Committee, South Kanara constituted in the Government Order first cited has stated in its report that the supply of tractors, bull dozers and pump sets is very inadequate to meet the large and growing demands of all parts of the district including Malnad. It has therefore recommended that a larger provision of all these items of machinery may be made to South Kanara District and a greater effort made to popularise their use by making th m available in important centres of Malnad. The Join Director of Agriculture who was consulted in the matter has explained the present position of Agricultural machinery allotted to South Kanar District and has stated that the District Agricultural Officer, Mangalore is beinginstructed to divert some of the units in the district for the Malnad areas on usual hire basis. In these circumstances the Government consider that the action taken by the Joint Director of Agricultural is sufficient for the present and that no further action is necessary on these recommendations of the Forest Grievances ~~Enquiry~~ Enquiry Committee.

2. In the Government order second cited the Government ordered that the Special Agricultural staff should take up the investigation of compact blocks in Salem District after the work in Nellore and Ramanathapuram Districts is completed in all its respects. The Government now direct that, after the work is completed in Salem District, the Special Agricultural staff should take up ~~in~~ South Kanara District for investigation of compact blocks for reclamation and cultivation and submit a report in due course.

3. The Government have also examined the following two colonisation, schemes suggested by the Registrar of Coperative Society.

(1) A scheme for the formation of a Co-operative Land Colonisation Society in Alankar Koila villages, Puttur taluk;

(2) A scheme for the formation of a land colonisation societ in Idu village, Karkal taluk.

They have decided that the question of taking up these schemes may be considered on receipt of the report from the Special Agricultural staff referred to in para 2 above.
